DigitalMeeting for Solicitors

Meeting clients expectations

Without a doubt, you would be failing in your duty if you did not point out to your clients where hidden costs might impact upon their profitability and of course you would demonstrably be applying this advice within your own practice.

Or would you?

When did you lately consider how much time, money and travel expense is involved in getting colleagues from various locations to attend business critical meetings? If we were able to offer you an inexpensive, tested and simple alternative would you be interested?

DigitalMeeting provides a unique audio video web package which gives you the opportunity to share and discuss information in a totally secure environment and regardless of whether the participants in that meeting are at work or at home, in the UK or abroad.

If you would like to share computer files collaboratively you can do so with *DigitalMeeting* securely – whether this is drawing up legal contracts and reviewing them with clients or internally reviewing your billing targets with associated Partners.

And of course, *DigitalMeeting* allows you to maintain the traditional standards of service whilst significantly improving the efficient way in which you support your clients. It negates the need for travelling and means you are more likely to be able to fit in a client critical meeting even when your diary is packed with appointments.

What is more, not only do we provide you with regular reviews on the effective use of *DigitalMeeting*, we can offer advice and training on how your staff can use this simple method to make enormous savings overall.

What else can we tell you?

- It can be uploaded immediately
- There are no set up fees
- Guests use a free phone number
- You pay as you go
- Unquestionable ROI
- You need no new hardware
- You need no new software
- You just need to contact us to start using *DigitalMeeting* TODAY

Don't just take our word for it

Alongside the standard 24/7 customer care we want to ensure you get the most out of *DigitalMeeting* which means we also offer:

Business plans – to show precisely where and how you can benefit from the service.

Quarterly reviews – to ensure that *DigitalMeeting* is being efficiently integrated within your day to day activities.

Training – so that everyone in your organisation is comfortable with the product and able to use it effectively.

Whatever the size of your company we know *DigitalMeeting* will decrease your travel time and expenses and increase your billing capacity and level of customer service.

Don't just take our word for it:

"As a small growing business, trying to do business internationally, we have found *DigitalMeeting* to be an invaluable tool. Ease of use was important and the support of the team at technilink is much appreciated"

Ron Carmichael Director Arcturus Ltd

Arcturus[★]
Hedge Fund Advisory

"Our product development team consistently has to interface with our manufacturing and design partners who are both based hundreds of miles away, incurring considerable costs. Now that we have been using *DigitalMeeting* we have made huge savings in time and money"

Paul Robinson FD Guy Kremer
